For flowers that bloom
about our feet;
For tender grass, so
fresh, so sweet;
For song of bird, and
hum of bee;
For all things fair we
hear or see,
Father in heaven, we
thank Thee!

As a service to our members, BCHE maintains its own Yahoo group. This group exists primarily to help foster a sense of community among members. It is a place where we can freely share information and discuss topics relevant to homeschooling such as items for sale/looking for, field trips, curriculum advice, etc.

Members are also free to post prayer requests or other personal words of encouragement. (Forwards are HIGHLY discouraged since many of us regard them as spam and don't have time to read them.)

When you join BCHE you are NOT automatically added to the Yahoo group. You must request membership in this separately.

Personally, it's my desire that every BCHE member would consider joining the Yahoo group this year. It's a fairly new addition and has been underutilized in the past but could be a great resource for us all.

If e-mail volume is a concern for you, just click on the "daily digest" when you join. That way, even if there are multiple posts in a single day, you will only receive ONE e-mail that contains all of the posts in a single message. In order to join go to www.yahogroups.com and enter "Brevard Christian Home Educators" where it says "find a group". Then click on "Request to join". The only criterion for membership is that you are a current BCHE member. As soon as your membership is verified, I'll add you to the group. (If you request membership and for some reason are NOT added within two days, or if you have any other questions, please e-mail me at annieven@earthlink.net)

If you choose NOT to join the Yahoo group you will still receive the monthly newsletter and other announcements from the communications director. The biggest difference is that when a member sends something to the communications director for broadcast, the entire group (BCHE/CHA) WILL receive it but there will generally (necessarily) be a delay. The Yahoo postings are instantaneous and it is therefore a faster, less formal means of communication.

Blessings, Annie Venable (BCHE Yahoo group moderator)

Charlotte Griffin teaches these classes and she's wonderful. My son Daniel has been taking from her for almost 8 years. She really makes art fun while teaching sketching, painting with acrylics and water color, perspective, still works, and more. If you have a student even a little interested in art, Ms.

Charlotte will truly peek their interest and challenge them at the same time. Give her a call!
